

ACKNOWLEDGEMENTS

This plan has been developed in Mesa, Arizona as the pilot project for Mesa's "Civic Artist in Residence" program. The residency initiative will allow artists to work within city departments for various lengths of time. As Mesa's first Civic Artist in Residence, I had the pleasure of working within the city's Engineering Division. I would like to thank both the City of Mesa Public Art Program and the Engineering Division for hosting this rewarding collaboration.

*Laurie Lundquist
June, 2002*

The following City of Mesa employees provided information, advice, and direction essential to the development of this plan:

Arts and Cultural Division

Kate O'Mara
